I believe that the passage of some laws would do more to settle this question than anything else that could be done. For one I indorsed, in conversation with my friend Mr. Learned, from San Josquin, his idea of the law. I believe it to be a good one. I understood him that he would submit it to the Committee on Resclutions. I do not know whether he did or clutions. I do not know whether he did or to send the matter to the committee named not. I may have misuncerstood the report of the Committee on Platform and Resultrions, but I did not hear any resolution recommending action of that kind. THE SCOTT MURDER.

Further Particulars - Corroboration-Another of the Defendants Confesses.

Now that Anderson and O'Brien have been held for the killing of officer Scott, on the 7th day of December, 1878, considerable inofficers got a clue to the identity of the murderers. The facts, as brought to light during the recent examination, are as follows: Early of inflammation of the bowels. on the morning of December 10, 1878, Ham-Edwards related to Ivey that while in Sacrato shoot a man. LEVI MILES BATES. CANDIDATE FOR MAYOR OF NEW YORK.

The question who will be the Mayor of New York City, after the November elec-tion, is one which at the present time, in the estimation of the people of the Empire State, ranks next in importance to that which ranks next in importance to that which relates to the government of their Commonwealth itself, and is of weight throughout the Union. That the affairs of the commercial capital of the New World should be ably and honestly administered is of consequence to the Nation, and that it is so regarded is evidenced by the general interest manifested in the matter throughout the country. In the last election the Republican calcidate. last election the Republican candidate for the Mayoralty came within a few votes of being elected, although the city is unquestionably Democratic, and the chances of Republican success in the coming election are decidedly strong. The candidate on that side will almost certainly be the gentleman whose por trait heads this article. Mr. Bates is the head of the Broadway dry

goods firm of Bates, Reed & Cooley, one of the largest houses in the trade. He was born at Richmond, Vt., and began the world as a plow-boy. By closely applying himself to work and study, he managed to secure an academic education and the managed to secure and the managed to secure an academic education and the managed to secure and the managed academic education as a pupil at the Bicknell Academy, Vermont, and at a suitable age began his business career in a dry goods store at Burlington, twelve miles distant from his birthplace. At 27 years of age he went to New York, and assumed a clerkship in Cedar street, at the corner of Nassau. After a few years he was one of four partners who tormed a new jobbing house under the style of Vincent, Clark & Co. and the great business of which he is now the head is the cut growth of the connection formed at that time.

JAMES R. FINLAYSON, Secretary. A CARD FROM FREDERICK COX.

To the Bemocratic Central Committee of the County of Sacramento: GENTLEMEN: I HAVE DELAYED FOR-mally accepting the nomination as a candidate for State Senator so kindly tendered me by acclamaon by your recent County Convention during my bsence, not from a want of a just appreciation of for me to do so in my condition of health, and do my duty to myself and family and the party to which I belong. I am not now physically able to make an active canvass, but am steadily regaining strength, and may be able to take the stump after a time, but can only accept the nomination upon condition that I shall not be expected to take further part in the

a shall not be expected to take further part in the canvass than is consistent with my health, as advised by my physicians. Feeling that I was unable, obysically, to make a personal canvass by going to every cross road and hamlet in the county, I have nesitated until now as to what would be the advisable course for me to pursue in the matter. But from assurances from every quarter, and generally build indigening at the form my follow efficiency with the course for me to pursue in the matter. and indiscriminately from my fellow citi and indiscriminately from my feirow-citizens with not regard to party affiliations, that this would not be necessary; relying upon these assurances, and believing that it is the carnest desire of my fellow-citizens for me to accept your nomination, my duty seems plain in the matter, and I hereby accept the onor conferred. If elected, I shall be at my post nonor conterred. If elected, I shall be at my post of duty at all times, and shall serve the people of my county and State with that earnestness and integrity due to the position, and with all the ability and vigilance I command, and hope when I shall have completed my duties as your Senator, that I shall not have forfeited in the least degree the good opinion and esteem that I hope my fellow-citizens now entertain toward me. I do not seem that now entertain toward me. I do not accept this nomination through any personal aspirations to political power, but from a sense of duty I owe to my country as one of its humblest citizens when called into prominence by my fellow-citizens. It is needless for me to say that I fully indorse every p'ank in your platform, and if elected I shall use all honorable means to secure legislation in furtherance of the principles incorporated therein.
